ROSS-SHIRE ENGINEERING

QUALITY HEALTH SAFETY AND ENVIRONMENT OBJECTIVES

The management of Ross-shire Engineering Ltd is committed to the attainment of our QHSE objectives. These objectives are:

- ◆ Develop a suite of installation documents and commissioning forms for mechanical, civil and electrical engineering disciplines which meet The Company's requirements.
- ◆ Investigate carbon neutral processes with the aim to be carbon neutral, net zero by 2040.
- ◆ Standardise pressure-testing procedure.
- ◆ Improve workshop process for dosing skid assembly and storage.
- ◆ Investigate what products can be standardised.
- ◆ Create a fresh air-working group to investigate new processes to reduce harmful emissions from our work activities.

These objectives will be monitored and reviewed annually and revised or updated as necessary.
